

Recursive method

```
60 node* reverseRecursive(node* &head){
61
62
63     if(head==NULL || head->next==NULL){
64         return head;
65     }
66
67     node* newhead= reverseRecursive(head->next);
68     head->next->next=head;
69     head->next=NULL;
70
71     return newhead;
72 }
```
